### **REASONS FOR ALLOWANCE**

1. Claims 1 and 4 – 20 are pending in the application.
2. The following is an examiner's statement of reasons for allowance:.

The prior art of record does not expressly teach or render obvious the invention a recited in independent claim 1.

3. The prior art teaches a system for developing interactive applications (IMAP, sections 1, 2 of Vazirgiannis), at least one electronic editor (authoring environment, section 3 of Vazirgiannis), means generating virtual objects (media objects, scenario tuples of Vazirgiannis), control means for correlating a plurality of event/action pairs (event due to action, section 2.2 of Vazirgiannis), simulation of a display screen of a display monitor and of a control interface for a control module associated with this display monitor (graphical components in target system, page 5, lines 15-25, fig. 2 of Bloem). However, the prior art does not teach a set of event/action pairs being organized according to a suite of lines of macro-instructions each comprising an execution position field, an event field, an action field, a list of conditions field and a Boolean halt variable field.

In addition, the prior art of record does not provide a basis of evidence for asserting a motivation that one of ordinary skill level in the art at the time the invention was made would have integrated or modified the system for developing interactive application with a set of event/action pairs being organized according to a suite of lines of macro-instructions each comprising an execution position field, an event field, an

action field, a list of conditions field and a Boolean halt variable field as recited in the context of independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
